# A vibrant community, close to it all.

All of Penn State's campuses are located in Pennsylvania, which is in the northeastern region of the United States.

Penn State is in Pennsylvania, on the east coast of the United States. With campuses located throughout the state—within a variety of rural and urban communities—you can choose the campus environment that is right for you.

University Park, Penn State's largest campus, is situated in the heart of central Pennsylvania, adjacent to the town of State College. Allows students admitted to Penn State to spend their first two years at one campus and transition to another for their remaining two years. There's a reason more than 50 percent of Penn State students choose this path to a degree: you have access to different campuses with varying class sizes—both large and small—all offering access to the same high-quality coursework, opportunities, and dedicated faculty you'd come to expect from Penn State. Each campus offers unique settings—both urban and rural—with diverse communities of learners from all backgrounds. Several campuses are within a short drive of Philadelphia, Pittsburgh, or other major cities. And there are significant cost savings associated with this plan.
